SERIES DB

STANDARD KEY FEATURES

The Series DB is built from high-quality components, designed to meet commercial standards at a competitive price. Compare the following:

Pre-Primed
All doors and frames are baked-on primer, meeting ANSI A250 Standards. Tested for salt spray, humidity, abrasion, and adhesion. Gray, white, or bronze.

Doors
Available as 20 gauge or 18 gauge galvannealed (A60), polystyrene core, square edge. Flush mounted door leaf. Doors meet commercial Steel Door Institute (SDI) standards.

Frames
16 gauge galvannealed (A60), 5 3/4" frame depth with 2" x 2" header. Frames meet commercial Steel Door Institute (SDI) standards.

Locks

Grade 2 Commercial.

Wall Anchors
Multiple different anchoring systems for steel stud, wood stud, masonry and metal building applications.

Hinges

Ball bearing US26D satin chrome hinges with security non-removable pins.

Other
Full ADA 5 3/4" aluminum threshold, dual finger TPE sweep, and self-sticking silicone bulb weatherstrip. All components meet commercial standards and ADA requirements.

NOW WITH A 3-YEAR WARRANTY!

WARRANTY

Series DB Doors have a complete three-year warranty minimum on all standard components.

PREASSEMBLED PRODUCT

OPTIONS

Subjambs

Flush mount only. 16 gauge subjambs and subframe header replace the need for a framed opening. Full 7'2" in height and can be modified to fit.

Grade 1 Lever Lock

Grade 1. Free wheeling, pressure release, vandal resistant lever.

Exit Device

Commercial-duty grade 1 rim exit device. Aluminum finish. Key-in-lever or escutcheon-with-lever trim.

Auto Closer

Commercial-duty grade 1 surface applied closer. Backcheck, sweep and latch speed adjustment valves.

Latch Guard

Steel latch guard with US32D stainless steel finish. Prevents tampering with the latch on lever locks.

LITE KITS

24x30

9x30
